

Rosemarie Halim

Graphic Design | UX & UI Design

Dear Hiring Manager,

I am a young freelancer applying for the intermediate Graphic Designer position from your post on Instagram. My goal is to identify and meet the needs of clients and create solutions that will leave both clients and consumers happy and inspired.

As a self-motivated individual who strives to learn and work along with a team and create new experiences for clients and consumers. I possess a wide variety of skills from my studies in Graphic Design along with an understanding of the standards to the production side of the digital industry. My education and experience covers a variety of multimedia such as programming and working with Adobe Creative Cloud, Microsoft Office, and Google Suite tools. The many hard experiences from the time of my education, freelancing, and in the industry has strengthened my ability to multitask, organize, balance and prioritize projects and have allowed me to enhance my eye for detail. I am a quick learner and enjoy picking up new methods, techniques, and crafts to apply to my work while quickly adapting to new environments.

The following are highlights of my skills and abilities:

- Worked in collaboration as a team to design posters and advertisements for several organizations.
- Proficient with Adobe Creative Cloud excelling in Photoshop, Illustrator, and Indesign.
- Well-versed in HTML, CSS, and JavaScript.

Enclosed is my resume for your review. I welcome the opportunity to discuss with you personally how my creativity and skills can best serve your company. I appreciate your time and consideration.

Sincerely,

Rosemarie Halim
